"Imagination will often carry us to worlds that never were. But without it, we go nowhere." Carl Sagan

Summary_

Always willing to learn, with great esteem for task automation, programming and technology. Seeking for opportunities in the engineering sectors which cover management and project planning, making it possible to apply communication and technical skills.

Education

SENAI - Servico Nacional de Aprendizagem Industrial

São Carlos, Brazil

INDUSTRIAL LEARNING COURSE: AUTOMOTIVE MECHANIC

Jan. 2008 - Jan. 2010

Qualification for diagnosis of irregularities, execution of preventive and corrective maintenance in automobiles.

UFSCar - Universidade Federal de São Carlos

São Carlos, Brazil

BACHELOR DEGREE IN MECHANICAL ENGINEERING

Mar. 2012 - Jan. 2018

· Undergraduate dissertation involving Arduino programming and concepts of autonomous vehicles, sensors and actuators.

CU Denver - University of Colorado

Denver, Colorado, USA

SCIENCE WITHOUT BORDERS

Jun. 2014 - Jul. 2015

· Student exchange program in Mechanical Engineering.

Work Experience _____

Engrenar Jr. - Consultoria e Projetos (UFSCar)

São Carlos, SP

PROJECT DIRECTOR

Sep. 2015 - Mar. 2017

- · Supported the development of mechanical projects for micro-enterprises and external community.
- · Responsible for scope definition of projects, management of activities, deadlines and key project indicators.

CBP Perfuratrizes do Brasil

São Carlos, SP

P&D INTERN

Jul. 2017 - Oct. 2017

- · Responsible to update technical drawings of components used in projects of soil drilling rigs.
- · In charge of process sheets elaboration to aid and standardize production and quality control of manufactured parts.

Hece Máquinas São Carlos, SP

MECHANICAL DESIGNER

Nov. 2018 - Dec. 2020

- · Responsible for the continuous improvement of machines through modifications in technical drawings of parts and mechanisms, focusing on cost reduction and facilitation of manufacturing and assembly processes.
- In charge of technical manual elaboration, compliance reports and led the project of standardization of processes in the Product Engineering sector.

Rota Oeste Máquinas: John Deere

Cuiabá, MT

CUSTOMER SUPPORT SUPERVISOR

Jan. 2021 - Today

- Corporate management of the Services department, being responsible for indicators related with branch efficiency and productivity.
- Responsible for action plans and training elaboration, always looking for the continuous improvement of internal processes.
- In charge of intermediate warranty processes between customer and factory, manage billing goals through field services and optimize service orders closing time.

Professional Skills_

Languages Portuguese (fluent), English (advanced), Spanish (basic) SolidWorks & PDM, Siemens UG NX, AutoCAD, MATLAB Software

Programming Python, Octave, SQL, Ladder Logic

> Others Microsoft Office, Power BI, LaTex, HTML, Inkscape
